## Film: 4-Colour Separation

### CONTACT INFO

Name

Phone Number & Email Address

### BOOK STORE

- » Non-Merchandise Item
- » Fine Arts Specialty Printing
- » *Use Total*

### PAYMENT PROCESS

- 1- Transfer file(s) to the Print Shop "Drop Box" on the Fine Arts Server or deliver in person via USB stick.
- 2- Review your file in-person with the Print Shop tech to ensure your file is print-ready and to go over paper options and pricing.
- 3- Fill out a print request form and take this form to the NIC Bookstore in Tyee to prepay for prints.
- 4- Return your prepaid, (stamped), print request to the Print Shop
- 5- Printing may take up to 2 days, longer if it's a high-volume time.
- 6- Pick up your prints from the tech.

### REMINDERS

#### File Format

- » Only **TIF** file formats are accepted.
- » **Flatten Images** (merge layers) and choose "LZW Compression".
- » MUST convert RGB **colour to CMYK**
- » No extra channels - **4 channels only**

#### Image Size

- » Set dimensions to fit media. Set resolution to 300 dpi.
- » **Maximum width** for your image is **0.5" less than the width of the roll.**

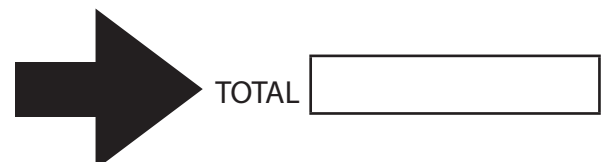

## PRINT SHOP SEPARATES CHANNELS & APPLIES SCREENS FOR YOU:

SUBMIT ONE CMYK PRINT FILE PER PRINT SEPARATION. DO NOT APPLY SCREENS TO PRINT FILES.

PLEASE MARK WHICH ROLL WIDTH: 17", 24" OR 36"					
File Names	Length measure in feet	17 Inch Cost / Ft (length)	24 Inch Cost / Ft (length)	36 Inch Cost / Ft (length)	\$ / CMYK Separation
		<input type="checkbox"/> x \$20	<input type="checkbox"/> x \$29	<input type="checkbox"/> x \$37	
		<input type="checkbox"/> x \$20	<input type="checkbox"/> x \$29	<input type="checkbox"/> x \$37	
		<input type="checkbox"/> x \$20	<input type="checkbox"/> x \$29	<input type="checkbox"/> x \$37	

### COST PER FOOT INCLUDES 4 PRINTS:

EACH PRINT FILE RESULTS IN 4 SEPARATE PRINTS, ONE PRINT FOR EACH CMYK COLOUR CHANNEL.

## 4-COLOUR FILM

Results in Screen Print Positives for Print-making processes, (black ink on transparent film).

**IMPORTANT:** Requires 4 channels of CMYK colour. Each channel becomes a separated colour image. Please see "Reminders" about File Format on the opposite side of this page.

Film media is only available in rolls. Roll media is measured and paid for per foot of length.

Cost per foot includes 4 separation prints: one from each colour channel in your file.

## WHICH WIDTH OF ROLL?

Your image must be at least **one inch smaller than the width** of the roll to allow for the printer margins and the registration marks.

**Example A:** If your file is 14"x22" then you would choose the 17" wide roll and the length you pay for would be 2 feet, (2 feet = 24 inches).

**Example B:** If your file was 16.75"x18" then you would choose the 36" wide roll and your length you pay for would be 1.5 feet, (1.5 feet = 18 inches).

Students can make their own layouts within a single file. The technician does not create layouts.
